

# Green I'z

## Jeannie Ortega

Jeannie, Jeannie, Jeannie can't you see?  
Your green I'z just hypnotize me  
And I just love your flashy ways  
Don't you know my love is here to stay  
Is here to stay, is here to stay, is here to stay  
Listen, so innocent, so tempted, what to do?  
Look into my I'z, they'll take over you  
They'll draw your body close  
They'll take control of you  
Look into the windows of my soul  
What makes your man wanna let go?  
Makes your body hot head to toe  
These green I'z  
Keep the contact, don't lose it  
Makes you wanna come pursue this  
Don't you wanna come and be with  
These green I'z, these green I'z?  
These green I'z  
I'll make you do like this  
That you said, you'll never do  
What's wrong baby, boy?  
Am I teasing you?  
On your mind, all the time  
Look into the windows of my soul  
What makes your man wanna let go?  
Makes your body hot head to toe  
These green I'z  
Keep the contact, don't lose it  
Makes you wanna come pursue this  
Don't you wanna come and be with  
These green I'z?  
These green I'z  
Drop your things and hand 'em away  
Don't you want to come and play?  
Find a place to get away  
There's no words for what the I'z can say  
Look into the windows of my soul  
What makes your man wanna let go?  
Makes your body hot head to toe

These green I'z  
Keep the contact, don't lose it  
Makes you wanna come pursue this  
Don't you wanna come and be with  
These green I'z?  
These green I'z  
These green I'z
