

# What If We Do?

Mia Doi Todd

We sit in the grass and we talk of our pasts  
A roll call of all our lovers  
A feeling arises we both recognize  
We could fulfill each otherWhat if we do?  
What if we do?  
What if we do?  
What if we do?We each have traveled and come to a rest  
Were trying to make things happen  
Neither of us know how to measure success  
Hey, we could fall in love and be happyWhat if we do?  
What if we do?  
What if we do?  
What if we do?All the butterflies rise to the surface  
I say stupid things when I get nervous  
Watch the sunset, forget all the chatter  
All the butterflies say it dont matterIts getting late, we had better head back  
We could stop and get some dinner  
Theres a full moon rising, the stars are aligned  
We could spend the night togetherWhat if we do?  
What if we do?  
What if we do?  
What if we do?
