

Let's Go Parking Baby

Caesars

I know I'm out of line
Are we out of touch
But this is all too much
You're such a groovy girl
I'd love to strap her on
When I'm really gone
Let's go parking, baby
Stay out all night, you and me together
2 wrongs don't make a right
Sweetest punks you've ever seen
Such a crazy girl
She doesn't make no sense
It doesn't bother me
She always throws me out
She always makes a scene
She's just the sweetest thing
Let's go parking, baby
Stay out all night, you and me together
2 wrong's don't make a right
Your black hair is so obsecene
Sweetest punks you've ever seen
Let's go parking, baby
Stay out all night, you and me together
2 wrongs don't make a right
Your black hair is so obsecene
Sweetest punks you've ever seen
Your black hair is so obsecene
My heart aches at what a state I'm in
