

Show Me Love

Tamia

When I'm down you show me love
When times get rough you show me love
When I can't go on you show me love again
Over and over again When I had no one to call my own
So broken hearted and all alone
You were there to comfort me, you're my everything
And no one can love me like you do When I'm down you show me love
When times get rough you show me love
When I can't go on you show me love again
Over and over again When I had no one to turn to
You were always there to see me through
No one can love me quite the way you do
You're my heart, you're my joy
And everyday you make it alright When I'm down you show me love
When times get rough you show me love
When I can't go on you show me love again
Over and over again When I'm down you show me love
When times get rough you show me love
When I can't go on you show me love again
Over and over again Late at night when I'm troubled 'bout tomorrow
You come and make everything alright
In my time of need, baby, you give love to me
My love, my joy, you know you do
You know you give me love When I'm down you show me love
When times get rough you show me love
When I can't go on you show me love again
Over and over again
