Fever Fever

Melody Club

struck down by a prayer
and she compels you, you can't help it
drop down to your knees
she's in your mind and you are blinded
and she put a spell on youshe's nobodys angel
she's nobodys
nobodys angelfever fever leave my heart alone
teardrops down my face
i curse the day when I was bornLost inside her grace
and you surrender sweet surrender
bound within a sigh
she takes you under, keeps you under
and she puts a spell on you
