

# So True

## The Black Seeds

The sweetest stuff, you give to me  
It makes me feel fine  
Every little word that you say to me  
Keeps my heart on time  
Red blood flowin' like a rough rapid  
When you are near by  
Ain't no doubt 'cos it's plain to see  
You set my soul on fire

Something so true  
Is what I get from you  
An' I hope that you'll see  
You get the best of me

Most generous love, you spread around  
To the people in your life  
Sharing the weight and the pressure  
Just to make it right  
I hope one day that you get it back  
If that karma stuff is true  
Here's a little song just to make a start  
Called something so true

Something so true  
Is what I get from you  
An' I hope that you'll see  
You get the best of me
