Naked Truth

Lalah Hathaway

Verse 1
Under my skin, (I feel it)
Reaching my soul, (I cant resist)
My safe illusion, (Of control)
Slowly fading, (You already know)
The dance were dancing, (We've danced before)
Matter of time (Before I let go)
We've come together, (Each time a suprise)
And though it was written (With that look in your eyes)Chorus
It's just the naked truth (Truly alive when I'm with you)
It's just the naked truth (You've changed all I thought I knew)
Yet you were living proof (The walls cave in, the time suspends)
As we climb to heights anew (And the naked truth)Verse 2
That Energy (The currency)
Close the space (Between you and me)
Without a touch a cinder (Burning within)
Threatens to spread (Before it begins)
With baited breath I ponder (What you just said)
The band is broken (Want you did in my head)
I'm going down (And I love the feeling)
Filling me up (And your taken me down)Chorus
It's just the naked truth (Truly alive, truly alive)
It's just the naked truth (You've changed all I thought I knew)
Yet you were living proof (The walls give in, the time suspends)
As we climb to heights anew (And the naked truth)
