The Rain

K-OS

You say you love me but then you turn and walk away
All for a love not even born yesterday
I see you on the streets and you just pass me by
You think I got no feelings, think Im living highBut let me tell you
I could be on the TV, I could be in their magazines
But its never enough when you felt the touch
Of an angel thats rocking your soulWhen the rain comes down
Youre never around

But when the sun comes up

You always steal the fireAnd rain comes down on this side of town

But people have no feelings

They just run around

They just, they justWe keep chasing dollars, its making me holler, I just dont know I dont need a check, I need some respect, so people you know

And the war and the babies crying

And the car and the house and the rings and the things

That dont mean nothing You could try to hate, classify and make your rate down But Im here to elevate, Ill be floating in outer space now When the rain comes down

Will you be around?

When the sun comes up

Will you always steal my fire? And rain comes down on this side of town
But people have no feelings, people
