

Adventurers

Holley Maher

I'll try out the math
You'll bring your tools
We could build a rocket in a day or two
If we shoot for the stars
Mabey we'll land on the moon
fire it up because we're leaving soon
Who's got time for feeling sad
When there's so much fun to be had
 Oh Darling
 Let's be adventurers
Let's live like king and not grow old
 Let's love the little things
 Let's hold on tight and not let go
 There's life to be lived
 There's sights to be seen
And they're all just out there waiting for me
 The sun it will rise
 And you can bet it will set
so get on you're feet let's go catch up with it
 Who's got time for feeling down
 When there's so much joy to be found
 Oh Darling
 Let's be adventurers
Let's live like king and not grow old
 Let's love the little things
 Let's hold on tight and not let go
