Shining Time

Maren Ord

Every now and then
There appears a sign
That points just 'round the bend
To a place you'll findCovered in clover
The magic comes over you
Showing up right on timeThis is your shining time
Climbing through stars to your own cloud nine
Soft strokes of lightning
Paint the sky's brightening
Over your shining timeFeel the golden sun
And your heart will soar
Moving all at once
You've been here beforeWandering through stories
Of your childhood memories
Calling you back once moreThis is your shining time
Climbing through stars to your own cloud nine
Warm cozy places
Welcoming faces
Greet you in shining timeClimb aboard, we'll take a magic journey
Wondrous worlds await you down the lineAll you need
To get you there
Is a ticket in your hand
Time's up
Hold on tightThis is your shining time
Climbing through stars to your own cloud nine
It's always with you
If you can just see through
Into your shining time
