Big Fun At The Gallows

Nothingface

Fuck! here I am now
Trapped in this hypocrisy
Shit! and believe that
Shit is all that will ever beInsurrection
The laughing gun
RevulsionI've got a little pent up rage
Set aside for a special moment
Not long til we find a way
To attain our blood commitment
Never thought it would be so easy
But I'm still gonna take my time
Who says I need a motherfucking reason
All I need is cold precisionDestruction
For me it's fun
Reaction.....yeahRevoke our dreams of demons
To tear the world apart
Now that we have our reasons
Our holocaust will startYour inner fear it complicates
Make us laugh, it make us hate
You will fall down one dayHey! I don't want it
Fade into obscurity
Liar, no commitment
Use us for what you can't doSo it's all about commerce
It's all about sucking dick
If you're not about music
Why don't you sell some other shitDestruction
For me it's fun
Reaction.....yeahRevoke our dreams of demons
To tear the world apart
Now that we have our reasons
Our holocaust will startNo! we don't need you
It's fucked nowFuck! here I am now
Trapped in this hypocrisy
Shit! and believe that
Shit is all that will ever beDestruction
For me it's fun
Reaction.....yeah [x3]
