

Aural Pleasure

Blackalicious

In amidst, of the deep blue abyss
Without your love found chance
Energy surround, enhance spirit now aural pleasure
In amidst your souls across ropes
Checkin' where your mind sun shines
Energy surround your head spinnin', now aural pleasure They call me Gab and I rap
And I do my thing and swing it bring it in my habitat
Where my vocals stinging even linger in the back of your neck
Where you feel the tingle, lingle, ling
You will adapt to your snappin' your thumb and finger eagerly
Now since we have to achieve We must believe, believe, believe into a certain degree
I'm just like the wheat you need to feed you
Man this circus won't cease
It just eats and eats and eats
Until we serving these beats in addition to serving MCs
'Til they go berserk and then freeze Any day of the week I speak through speakers
You can burn with this heat, MCs you freeze to see the reasons
Take your circuits and free ya up
From the he's and she's and needs
Emotion surface to be havin' your search through the abyss
Aural pleasure y'all In amidst, of the deep blue abyss
Without your love found chance
Energy surround, enhance spirit now aural pleasure
In amidst your souls across ropes checkin'
Where your mind sun shines
Energy surround your head spinnin', now aural pleasure Check it out On the corner of jail, but not a dealer of
death
Realer, iller, conceal a feelin', sealin' there's nothin' left
On the top, on its penicillin, you got wish
It's a oracle, then it seize ya, I'm sure you got lifted Oceans of rhythm inside a killer go ta death
Coming divine as I reach and travel in the depths
Moving your spirit just like you're walkin' through a 'X'
Choice of the generation, that come and be the peps Bubblin' all in your cups, don't even follow it up
Nothin' to wallow in but the sound that you're gobblin' up
Rockin' in time until your poppin' your mommy up
Callin' your aunt, and also your pa, and the swallow the funk It's just a little somethin' that open your comatose
Stay to livin' in Babylon with the spiritually dead ghost
This is recommended, I highly advise a toast
Hopefully it inspires and maybe encourages growth Aural pleasure y'all

Aural pleasure y'all
 Aural pleasure y'all
 Aural pleasure y'all
 Aural pleasure y'all In amidst, of the deep blue abyss
 Without your love found chance
 Energy surround, enhance spirit now aural pleasure
 In amidst your souls across ropes checkin'
 Where your mind sun shines
 Energy surround your head spinnin', now aural pleasure Watch out Blazing Arrow Test 'til it's scarred
 Press through the storm
 Find who we are with true desire
 For no human being
 Quest for your dreams
 By any means, endure the fire Pure, test and trial an error destined to endure
 Infallible, unyieldin' to the adversary's law
 'Cause I graft for the after me, syntax in a masterpiece burner
 Unless your flame's life surpasses eternal
 You couldn't swing it if you had a pendulum
 Strapped to your sternum, I am the sun One with the son of man righteousness
 Won't be defeated by the underhand faceless
 Hands in the presence of greatness, I'll teach you how to backstroke
 With cinder block bracelets, dark paddlin', kickin'
 In the quick sand no aces, constance under pressure
 Test how true your faith is, faith You wanna see my face, connect the stars
 Passion birth right RAW, hide electric Gibson guitars
 Spark Cohoba cigars, African Tsars
 From the call, think fast like Ramadan
 I'm beyond the book of Ramah ad
 Nigeria Phenomenon A bbo, dot to dot
 I am the might of common law
 Kum Bay ya chronicle, got the run of flow
 Jungles beside a hole
 Songs that a side a told Geronimo platoon
 Undergrounds a phat, I tousle now swallow slow Let my fire killer higher, hell a soul
 Floss you with barbwire coils
 Anoints with Allah bills 'cause royal karma's close
 And can't wait and can't wait, God's be ghost
 Waving a burning spear
 I am Faith, I am Faith, I am Faith
