

# Carefree American

[Kelis](#)

(Chorus)

Ah, ah, I'm just a carefree American

Big house, big car

I'm just a carefree American

Come and make me a star(s and stripes)

Biggest lights, never die

The good life Feel the cool breeze

Forget history

It just repeats

Take a load off

Watch some TV

Enjoy cable

I think it's for free He greets you with a high five

He's just my kind of rugged guy

BBQs, the Sunday news

His road is just an easy ride (Chorus) Feel the cool breeze

Forget history

It just repeats

Take a load off

Watch some TV

Enjoy cable

I think it's for free She wants to have everything

Now typical, the diamond rings

Deep in a snug routine

Oh baby, who knows when to scream (Chorus) You ride with me

Down a freeway or an open street

And we feel the breeze

With the top way down

And the sounds real loud (Chorus)
