

Fortress

Elevation Worship

When the fear is overwhelming
You promise I will stay
You were faithful till the end
When my enemy surround
I'm safe within your hand
You were faithful to the end

And when the battle comes
I know you mighty fender
The mighty fortress is our God
And when the victory won
I know I still be standing
The mighty fortress is our God

Let your prayers go before you
Into places I can see
You were everything I knew
Let my weakness show you Gory
And my scar became your strength
You were everything I need

And when the battle comes
I know you mighty fender
The mighty fortress is our God
And when the victory won
I know I still be standing
The mighty fortress is our God

The mighty fortress is our God
