

All Around and Away We Go (Hotel Motel Mix)

Twin Sister

All around and away we go to find it again
This is earth, yours filling up your heart with hiss
You've shown me kindness and I felt touch
Resurrected, sharing white bread
Under purple blue blossoms I'm smiling for two
All around and away we go, keep it up and we'll win
I'm knowing you and this is love until the end
Merry go round sends a wave of good humor
Feel the power of my many destinies, they'll all come true
