

Street Cafe

Icehouse

If there were no tomorrows
If there was just one more chance
I'd take it again, you know I'd take it again You turn and it's gone forever
In time you forget
You know that's love, it's only love And no matter where the days have left you
Everyday ends at the street cafe, the street cafe
And no matter where the road may take you
Everytime it brings you back to the street cafe, it's where you have to be Street cafe Well the people may come
and go but
Here the street and the scene is just
The way that it was, the way that it was No, nothing will ever change here
Maybe a smile reminds you
Now and again, you wonder now and again When another night will take you nowhere
You go down to the street cafe, the street cafe
And any time you know the crowd can hide you
The days end at the street cafe, yeah, the street cafe You turn and it's gone forever
In time you forget
You know that's love, you know it's only love But no matter where the days have left you
Every day ends at the street cafe, the street cafe
And no matter where the road may take you
Everytime it brings you back to the street cafe, yeah, the street cafe No, no, no matter where the road may take
you
We'll meet again someday
You know we'll meet someday, someday at the street cafe
