Fall on My Knees

CC Smugglers

You told me one
You told me two
You told me ten thousand lies, little girl
You told me ten thousand liesWell, you told me more lies
Than stars in the sky
You'll never get to heaven when you die, little girl
You'll never get to heaven when you dieI'm fallin' on my knees
And I'm beggin' you please
Come along and stand by me, little girl
Come along and stand by meI wished to the Lord
That I never had been born
That I'd died when I was young, little girl
That I'd died when I was youngI never would have kissed
Your red rosy lips
I never heard your lying tongue, little girl
I never heard your lying tongueYeah, I'm fallin' on my knees
And I'm beggin' you please
Come along and stand by me, little girl
Come along and stand by me, ohNever, never, never, never, never, never
Never get to heaven when you die, little girl
Never get to heaven when you dieNever, never, never, never, never, never
Never get to heaven when you die, little girl
You'll never get to heaven when you die
