

# Exit Life

## Ringworm

Throw away your life for this  
Dead and gone and cowardice  
My revenge, now it's over  
One more time to kill the pain  
Everyday I defy you  
Everyday it's all the same  
What do you do with the hate inside you?  
And you feel the pain and strife?  
What do you do with the walls around you?  
Or when they show the knife?  
No blame as I exit life, no shame as I exit life  
Not real, as I exit life  
Cold steel, as I exit life  
Falling down, now it's over  
You want to take the blame?  
I want to break down the walls around me  
You want to feel the same  
You tear out the heart that breaks you?  
I won't even try  
Crucified, endless martyr  
I don't have time to die  
I don't have time to die  
I won't live my life for this, deep inside the cold abyss
