

Cold Warning

Gary Numan

Something is here
I can hear them breathe
Something is here
And I'm scared
Beg to your gods
But I don't believe
Nothing in here
Can help me now Cold warning comes for me Something is here
And I've got the nerves
Something is here
And I'm cold
I'm so lonely
Do you know how it feels?
All I can do
Now is lose Cold warning comes for me
