

I Belong To You (12" Extended Mix)

Gina G.

If I had wings, I could fly
Like a sweet song that makes you cry
Like a river, to the sea
I hear you calling out to me
No-one else touches me
With a whisper, a melody
When you hold me through the night
And you tell me it's gonna be alright. I belong to you, you belong to me,
Naturally, so naturally.
Baby, I belong to you, you belong to me,
Naturally, so naturally. I was lost without a friend
And you saved me from myself again
And there's no-one gonna take away
The joy you gave me everyday
That's no lie, you're the reason why. You belong to me.
You belong to me. You know there'll never be another
Let me be your lover for eternity
Baby can't you see we are good together. No-one's gonna break us apart
(No-one's gonna break us apart) You know I gave you my heart, boy.
