Carry On

Mercutio

I can't remember now exactly how I got here
Time has a way of making things seem so unclear
And I know that I can but I don't understand
Why I doubt myself when I've done this all before
And so I carry on although I am unsure

And when I find myself in a new situation
I look around and see that everyone is anxious
And I know that I can but I don't understand (And I know that I can)
Why I doubt myself when I've done this all before (I've done this all before)
And so I carry on although I am unsure

I'm nothing but what you see in me
Just like you I bleed

It won't get easier to face what I'm afraid of
But every now and then life shows me what I'm made of
And I know that I can but I don't understand (And I know that I can)
Why I doubt myself when I've done this all before (I've done this all before)
And so I carry on although I am unsure

And I know that I can but I don't understand (And I know that I can)
Why I doubt myself when I've done this all before (I've done this all before)
And so I carry on although I am unsure

And so I carry on although I am unsure
