When Will You Be With Me

drumfish

Here we come and go again
Repetition never seems to end
Help me find a way to make amends
It seems shades of green and blue and yellow blendPleased to meet you, he said
But the way the night has gone
Id swear I will never see you againWhen will you be with me
(Cause I dont see you)
When will you be with me
(Never want to hear you say)
When will you be with me
(Cause Im not fallin)Never gonna change my mind
You know it happens all the time
And its something I wont say
(Im always trying to say that)
That I need it this wayPleased to meet you, she said
But the way the night has gone
Its clear I wont be needing you againWhen will you be with me
(Cause I dont see you)
When will you be with me
(Never want to hear you say)
When will you be with me
(Cause Im not fallin)Pleased to meet you, they said
By the time the night has gone
Theyll say the same thing over and over againWhen will you be with me
(Cause I dont see you)
When will you be with me
(Never want to hear you say)
When will you be with me
(Cause Im not fallin)
