Spirit

Up Front

see a change in the youth today
caring, growing, and learning more
not afraid to find a better way
we're speaking out what we stand fordo what's right so we can see
spirit of living freeit's time to realize - it's time to see
the spirit that lies within your mind
it's time to learn - it's time to come alivestrength of knowledge deep inside
we made our choices and we're holding true
stagnation is all you've ever tried
just sit back and watch us movedo what's right so we can see
spirit of living freethe good times we've seen
our hopes and our dreams
searching for truth through the spirit of youth
'cause we want to live free
