Sweet Thing

Georgie Fame

You show up
Walking in the place like "What? What?"
I've never seen a girl that tight
How can anyone deny your shine?

Spot me, chilling in the club with plan be
Gotta make it work this time
Second time around
It's on tonight

What you do
When you move
Got me frozen to the spot
And I can't afford to stop

Sweet thing
You as bad as you want to be
Sweet thing
It ain't never been this hard for me

You're the brightest thing that I ever seen
Diamonds blind ya
You with me
Sweet thing

You as bad as you want to be
Sweet thing
It ain't never been this hard for me
Don't know what to do

When you shine at me
Diamonds blind ya
You with me
Girl you make me want to fall in love

True, did you hear what I just said
Gotta find a way inside her head
Check this I ain't in front and
She said she don't need a man

But I'm gonna be the one to change her mind
What you do
When you move
Got me frozen to the spot

And I can't afford to stop
Sweet thing
You as bad as you want to be
Sweet thing

It ain't never been this hard for me
You're the brightest thing that I ever seen
Diamonds blind ya
You with me

Sweet thing
You as bad as you want to be
Sweet thing
It ain't never been this hard for me

Don't know what to do
When you shine at me
Diamonds blind ya
You with me

Seeing you and I'm never turning back
Don't care anymore and that's a fact
Now you're my everything
Since you came my way

Straight up
You're the only one I want
Right here is a chance to get it on
I want you to trust me

I can't move when I'm around you
Sweet thing
You as bad as you want to be
Sweet thing

It ain't never been this hard for me
You're the brightest thing that I ever seen
Diamonds blind ya
You with me

Sweet thing

You as bad as you want to be
Sweet thing
It ain't never been this hard for me

Don't know what to do
When you shine at me
Diamonds blind ya
You with me

Sweet thing
You as bad as you want to be
Sweet thing
It ain't never been this hard for me

You're the brightest thing that I've ever seen
Diamonds blind ya
You with me
Sweet thing

You as bad as you want to be
Sweet thing
It ain't never been this hard for me
Don't know what to do

When you shine at me
Diamonds blind ya
You with me
Sweet thing

Sweet thing
You're the brightest thing that I ever seen
Diamonds blind ya
You with me

Sweet thing
You as bad as you want to be
Sweet thing
It ain't never been this hard for me

Don't know what to do
When you shine at me
Diamonds blind ya
You with me
