

SOFI Needs A Ladder (Robaco Bossa• Remix)

deadmau5

Let's play musical chairs, one of my favorite games
Especially now that you and I have traded place
You walk around in shoes that don't fit for a change
There is a way for you to win this raceCrisscross you turn your shirt inside out
You like to think I can't figure you out, but the tables have turned
What goes around comes around, you're about to get burned
Flip the script, you're checking in, I'm checking you outYou're just too sweet till you get on my nerves and hurt
like cavity
You left a bad taste in my mouth, my Sour Patch Kid
You and me, it's no mystery, no magic trick
Let me hear this broken record again, just press repeatI can be your new favorite waste of time, and you'll be
mine
All I want is your attention, it's all the same thing
Are you in? What's it gonna be?
Don't roll with the punches, make it hard for me babyDrop you like a needle on the record, scratch my itch
Watch you walk in circles hit the beat
Drop you like a needle on the record, flip my switch
Go around in circles, hit the beatDrop you like a needle on the record, scratch my itch
Watch you walk in circles hit the beat
Drop you like a needle on the record, flip my switch
Go around in circles, hit the beatDrop you like a needle on the record, scratch my itch
