

# Ripped Apart

## DevilDriver

Throw stones  
even though you live in a glass house of your own  
and i dont sympathize or criticize  
rumor has it you've got something to say  
you've got nothing on me  
nothing on me  
rumor has it you keep repeating yourself  
you've got nothing on me  
nothing on mesecond wind  
second sight  
second skin  
go within  
ripped apart  
ripped apart on sightFork tounge  
its like a razor when you want to use it  
and use it wrong  
and i dont compromise or socializerumor has it you've got something to say  
you've got nothing on me  
nothing on me  
rumor has it you keep repeating yourself  
you've got nothing on me  
nothing on mesecond wind  
second sight  
second skin  
go within  
ripped apart  
ripped apart on sightripped apart, ripped apart, ripped apartgoddamn, shit, i'm feeling it  
when we see each other its throw time  
when we see each other its throw time  
when we see each other its go timeyou throw stones and i dont criticize  
you throw stones and i dont sympathize....with you
