

Little Dreams

Ellie Goulding

If a plane crashed into my room
I wouldn't even flinch
I couldn't try to move
My mind is on you
My mind is on you If the streetlight smashed above me
I wouldn't move an inch
Turn the glass into stars
And your face is the moon
And the night turns to you
'Cause my mind is on you You've got me caught in a place
Panic for a minute
Got my brain in a daze
I wish you weren't in it
There are so many ways
To lose your attention You can break everything but so what?
I can take anything
I can take anything
I can take anything If electric charges shock me
I'd smile and fold my arms
I'd feel nothing new
Because my mind is over you
Oh, my mind is on you, oh And if the floor gave way to my shoes
I wouldn't try to fly
I can't explain what it would feel
I just feel you
How it feel? I just feel you You've got me caught in a place
Panic for a minute
Got my brain in a daze
I wish you weren't in it
There are so many ways
To lose your attention You can break everything
But so what?
I can take anything You're the heat in my bones
But you break me with stones
You're the heat in my bones
But you break me with stones If a plane crashed into my room
I wouldn't even flinch
I couldn't try to move
My mind is always on you

My mind is always on you Caught in a place
Panic for a minute
Got my brain in a daze
I wish you weren't in it
There are so many ways
To lose your attention You can break everything
But so what? Even when I'm caught in a place
Panic for a minute
Got my brain in a daze
I wish you weren't in it
There are so many ways
To lose your attention You can break everything
But so what?
I can take anything
