

Bowlegged Woman

Widespread Panic

Well take me to my car now
But the car won't go
Try to get next to you baby
Ain't got no place to go Taste better than a t-bone steak
Excitement on the side
If we don't find some place to get off
Gonna lose it on the ride Well you and me baby, go hand in hand
Like a bowlegged woman, and a knock-kneed man Well you and me baby, go hand in hand
Like a bowlegged woman, and a knock-kneed man I wanna take you in my room
Make them sleepers cry
Got a feeling down inside
You know it ain't no lie You and me just in my room
When the circle comes around
No misfortune in your life
When your feet have left the ground Well you and me baby, go hand in hand
Like a bowlegged woman, and a knock-kneed man Well you and me baby, go hand in hand
Like a bowlegged woman, and a knock-kneed man Room shaking in the car now
And the car won't go
Try and get next to you baby
Ain't got no place to go Taste better than a t-bone steak
Excitement on the side
If we don't find some place to get off
Gonna lose it on the ride Well you and me baby, go hand in hand
Like a bowlegged woman, and a knock-kneed man Well you and me baby, go hand in hand
Like a bowlegged woman, and a knock-kneed man
