## Souljahz

Workin' on really servin' Him in praise  
(Worship)

Workin' on really servin' Him in praise  
(Worship)

Workin' on really servin' Him in praise  
(Worship, worship, worship)

Workin' on really servin' Him in praise Gaze into His eyes, fantasize the last days  
The last phase of God's untouchable plan  
Until then, worship His name

Through this black pen, writin' raps Or anyway that I can, still praisin' God  
'Cause that's the way that I am, you might call me odd

But that's aight, we are Souljahz of the Lord

And we are ready to fight, neva will we eva stop We love Jesus from the bottom of our hearts to the top  
Pumpin' God's blood through our veins

Handcuffed to Jesus Christ and feet shackled in chains And we don't wanna be free, we just wanna see  
The Savior and Creator of the heavens and seas  
G's not necessary because we

Only need two knees to bow down and worship G O D Workin' on really servin' Him in praise  
(Worship)

Workin' on really servin' Him in praise  
(Worship)

Workin' on really servin' Him in praise  
(Worship, worship, worship)

Workin' on really servin' Him in praise When I come through I'm breakin' buildings  
And I'm makin' walls fall

Sit back and relax 'cause we got more in store for why'all

So listen up and listen good We gotta praise God through our whole neighborhood  
I should slow it down, so you can understand

What this flow is all about And we can break down these sounds and take time to meditate  
On the word of God so your wisdom can escalate

When you gonna put your foot down, take a note now

Acceptin' God is your only hope now Reach down, deep down in your heart  
You talk the talk but do you walk the walk'

You say you love God but do you really love God'

Will you still love God when situations get hard'

Or will you walk away, or will you get down and pray

And worship the Lord almighty like we' Workin' on really servin' Him in praise  
(Worship)  
Workin' on really servin' Him in praise

(Worship)

Workin' on really servin' Him in praise

(Worship, worship, worship)

Workin' on really servin' Him in praise(Worship)

The Lord almighty

Ain't it odd people take God so lightly, check it

Satan is waitin' to fight me and you might say

That I'm dumb for walkin' away, I chose the right wayDespite the obstacles that stand

In my way don't play praise God with two hands

Lift 'em up to the sky, head to the ground

Every knee will bow down, to Jesus don't play aroundAnd if you say you found God then prove it

Profess it with yo tongue you gotta mouth, son use it

Jesus is the name above all names

Forget a famous superstar, God possess all fameHe posses all thing around me, around me

Word, His Holy words neva seize to astound me

And everywhere I look and everywhere I go
