Heaven Sent

Hinder

Never saw the chemistry that was there with you and me
It's been a long time coming
Well come on
It's freaking me out that I didn't see
You're so damn hot girl it's just crazy
And without a doubt I still can't believe
That you were right there in front of me
Never saw the chemistry
That was there with you and me
It's been a long time coming
Just waiting on an angel
To take me out of my hell
I'm falling for you
Just dropping out of thin air
You came out of nowhere
Right out of the blue
When heaven sent you
And night after night when I didn't sleep
But that was before you laid beside me
When all of my demons were dancing with me

I'm glad you came down because I was in too deep
Never saw the chemistry
That was there with you and me
It's been a long time coming
Just waiting on an angel to take me out of my hell
I'm falling for you
Just dropping out of thin air
You came out of nowhere
Right out of the blue
When heaven sent you
Just waiting on an angel to take me out of my hell
I'm falling for you
Just dropping out of thin air
You came out of nowhere
right out of the blue
Just waiting on an angel to take me out of my hell
I'm falling for you
Just dropping out of thin air

You came out of nowhere
Right out of the blue
When heaven sent you
