

# Me Vs. Myself (Kickstarter Exclusive Single)

## We Shot the Moon

Now it's me against myself  
In the biggest fight of our lives  
So many roads we have been down  
I'm so terrified of getting this right And it's you  
Who I run back to  
But it's you  
Who I won't let through  
Right now it's me against myself  
To prevail or to die Coming up just to fall short  
I'll come out a survivor  
Swimming out to the deep end  
Using up all my options Something isn't right  
I see it in my eyes  
Repeat and start again When I look in the mirror  
There's a skeleton staring at me  
Rising up from a graveyard  
With the secrets I buried so deep And it's you  
Who I run back to  
And it's you  
Who I won't let through  
Right now it's me against myself  
Is it real or a lie I do it to myself,  
I do it to myself Coming up just to fall short  
I'll come out a survivor  
Swimming out to the deep end  
Using up all my options  
Coming up just to fall short  
I'll come out a survivor  
Swimming out to the deep end  
Using up all my options Something's not right  
She sees it in my eyes  
Repeat and start again I do it to myself,  
I do it to myself,  
I do it to myself Coming up just to fall short  
I'll come out a survivor  
Swimming out to the deep end  
Using up all my options So call me out, call me out  
Time's running out, running out  
So call me out, call me out Something isn't right

I see it in my eyes  
Repeat and start again
