Must Be Dreaming

Frou Frou

Pay close attention
Don't listen to me from now
George will be flying this one
And it's anyone's guess how he does itThis is my turn wrong universe
You're taking me in full bloom
Viable, careful with that there
See, what you made me doI must be dreaming or
We're on to something
I must be dreaming for
I don't fall in love lawlesslyI must be dreaming or
Pinch me to waking
So undeniably yours
As long as I'm losing it so completelyIncendiary glance
Be come and collide in me
Soon and in hearts
Oh, while I go helplessly sky high magic
I sugar rushing don't stopI must be dreaming or
We're on to something
Hey just watcha make me for
I don't fall in love lawlesslyI must be dreaming or
Pinch me to waking
So undeniably yours
As long as I'm losing it so completelyEuphoria I can't take anymore of it
Euphoria I can't take anymore of it
I'm losing itI must be dreaming or
We're on to something
Hey just watcha make me for
I don't fall in love lawlesslyI must be dreaming or
Pinch me to waking
So undeniably yours
As long as I'm losing, I'm losing itI'm losing it
I must be dreaming
I must be dreaming
I must be dreaming
