

# Lonely for You Only

## Midland

Going out every night don't fill the empty  
Cause the thrill always ends when they say last call  
And it's not like other girls they don't wanna know me  
But waking up with strangers ain't no fix at all  
Cause I'm lonely for you only  
And everyday is just a deeper shade of blue  
And I don't want no other heart to ever hold me  
Cause I'm only lonely for you  
I jump every time I hear the phone ring  
But it's never your voice on the end of the line  
And I run to the blinds and look out my window  
And hold my breath every time a car drives by  
Cause I'm lonely for you only  
And everyday is just a deeper shade of blue  
And I don't want no other heart to ever hold me  
Cause I'm only lonely for you  
And I don't want no other heart to ever hold me, no  
Cause I'm only lonely for you  
Cause I'm only lonely for you
