Everything Is Better With Me

Crash Test Dummies

I'm gonna take you down
And I don't fool around
With no talkin' I'll take you for a ride
I'll make you feel inside
What I'm feelin'And I know that you'll see
Everything is better with me
And I know that you'll find
You can't get me out of your mindYou'll be hypnotized
By my beady little eyes
You can't help it and in you're walking sleep
You'll feel it way down deep
And you'll want itAnd I know that you'll see
Everything is better with me
And I know that you'll find
You can't get me out of your mindI'll light your cigarette
And stroke your pretty head
In the mornin' and when you're laying there
With my fingers in your hair
Youll get thinkin'And I know that you'll see
Everything is better with me
And I know that you'll find
You can't get me out of your mind
