

# Everything Is Better With Me

## Crash Test Dummies

I'm gonna take you down  
And I don't fool around  
With no talkin' I'll take you for a ride  
I'll make you feel inside  
What I'm feelin' And I know that you'll see  
Everything is better with me  
And I know that you'll find  
You can't get me out of your mind You'll be hypnotized  
By my beady little eyes  
You can't help it and in you're walking sleep  
You'll feel it way down deep  
And you'll want it And I know that you'll see  
Everything is better with me  
And I know that you'll find  
You can't get me out of your mind I'll light your cigarette  
And stroke your pretty head  
In the mornin' and when you're laying there  
With my fingers in your hair  
You'll get thinkin' And I know that you'll see  
Everything is better with me  
And I know that you'll find  
You can't get me out of your mind
