Ching Chime

Serj Tankian

Why make time when no one pays a dime
To remunerate a rhyme over the ching chime
Ching chime, ching chime
Creating a crime, just starting with melodime
Looking at a mime, the rhymes are all mine
But no one pays no mind
Over the ching chime, ching chime
In the day time face covered by the grime
Sucking on a lime when no one pays no mind
Slapping on the rhyme, over the ching chime
Over the ching chime, ching chime
Super Bawl half time, any time is more time
Seconds is just past time, gonoreea over time
Fuck that and spread time, no a friend of mine
Over the ching chime, ching chime
Or fuck your mind over the spring time
The great in your mind, and thought so as in mine
But no one pays no mind, and no one pays a dime
Over the ching chime, over the ching chime
Open your eyes, don’t be this way
Throw all your dreams, the rest will have to wait
The stairs won’t rise from yesterday
Your tears will chase the away
Super Bawl half time, any time is more time
Seconds is just past time, gonoreea over time

Fuck that and spread time, no a friend of mine
Over the ching chime, ching chime
Or fuck your mind over the spring time
The great in your mind, and thought so as in mine
But no one pays no mind, and no one pays a dime
Over the ching chime, over the ching chime
Open your eyes, don’t be this way
Throw all your dreams, the rest will have to wait
The stairs won’t rise from yesterday
Your tears will chase the away
The waters will rush but don’t dismay
The smile will cross the world will stay
The bridge has crossed itself today

Now close your eyes and sway this way, sway this way X 2
Why make time when no one pays a dime
To remunerate a rhyme over the ching chime
Ching chime, ching chime
Creating a crime, just starting with melodime
Looking at a mime, the rhymes are all mine
But no one pays no mind
Over the ching chime, ching chime
In the day time face covered by the grime
Sucking on a lime when no one pays no mind
Slapping on the rhyme, over the ching chime
Over the ching chime, ching chime
Super Bawl half time, any time is more time.
