

# Love

## Delerium

Even my heart is broken in two  
Now I feel no sense of certainty  
Can there ever be any guarantees in life?  
Tell me You ask yourself, what do you know?  
I know I'll always love you, baby  
And you'll ask me, how I feel about you?  
I know I'll always love you Even home, I feel whole often lost  
Feel no sense of safety  
Can there ever be any guarantees in life?  
Tell me, oh tell me You ask yourself, what do you know?  
I know I'll always love you, baby  
And you'll ask me, how I feel about you?  
I know I'll always love you I will take you away from yourself  
From life  
I dream each year  
That I have loved you
