You Got My Love

Toby Lightman

Some would say love's difficult
Some would unfair
(I don't understand)
Doesn't always mean that you'll be thereDoing the things that we do
Just an everyday affair
Girl, just hold on tight on this coaster ride
Believe me when I tell you that I care 'causeYou got, you got the best of me
My love is always gonna be yours
Don't go flipping out on me
You should know that nothing gonna change'Cause I knew the first time I saw ya
That something was taking me higher
And I tell ya over and over
You got my love, yea, you got my loveI know we get a little crazy
Nothing could ever touch us, baby
I'll be doing you out
You got my love, yea, you got my loveDon't know why you're feeling blue
You said you'd understand
You know I do it over you
So why's this conversation getting out of hand, girlYou got, you got the best of me
My love is always gonna be yours
Don't go flipping out on me
You should know that nothing gonna change'Cause' I knew the first time I saw ya
That something was taking me higher
And I tell ya over and over
You got my love, yea, you got my loveI know we get a little crazy
Nothing could ever touch us baby
I'll be doing you out
You got my love, yea, you got my loveOh, oh, you got my love
(You got my love)
My love my love
(Oh)
You got mySo baby
(So baby)
Sincerely
(Sincerely)
I swear I'll never break your heart
'Cause' without you
(Without you)
I'm empty

(I'm empty)
I'm left with a memory
So let me show just how good this love can beGirl, you got my love
(You got my love, you got my love)
Girl, you got my love
(You better believe in love)'Cause' I knew the first time I saw ya
That something was taking me higher
And I tell ya over and over
You got my love, yea, you got my loveI know we get a little crazy
Nothing could ever touch us baby
I'll be doing you out
You got my love, yea, you got my love'Cause' I knew the first time I saw ya
(Oh, oh, you got my love)
That something was taking me higher
(You got my love my love my love)
And I tell ya over and overYou got my, you got my, you got my, you got my
You got my, you got my, you got my, you got my
You got my, you got my, you got my, you got my
You got my, you got my
