

Breakaway

Slapshot

Can't climb any mountains can't climb any seas
I think all your friends hate me
They treat me like I got some fucking disease Breakaway
Breakaway I don't think much of myself
You could say I got low self esteem
But my heart breaks just like anyones
Although to most that's not how it seems Breakaway
Breakaway It's a form of mind control
And it's taking my very soul
I don't make friends just enemies
And I'll never know what you see in me Breakaway
Breakaway
