

Brother

[Mikhael Paskalev](#)

Brother, let's sleep for a while.
'Cause you're my brother, and I need you by my side.
Brother, don't you worry,
We got nothin' but time.
Brother, don't hurry,
Come sit by my side.
But I guess it's the way it should be. Brother, there's something I never told ya.
As I'm growing older, I feel sick, I feel lonely.
Brother, how I miss you and the way that you know me.
Oh, brother, can't you see? Resting our old bones on a bench,
We're good old friends,
Oh, brother.
Guess things never change,
I feel young when I hear that old song. I feel like I'm 20 years old,
When you're around, it doesn't matter I'm bold,
Sure, I'm heavy,
But I punch my weight in gold.
When we're together, things don't matter at all.
Brother, oh brother, there's no one other.
There's you and me for as long as we can be. Brother, do you remember way back when,
Life was getting sweeter with every moment that we'd spend,
Brother how I miss you and the way you know me,
Brother come on and show me. Summer sun, now the boys are on the run, uh huh, oooh. Resting our old bones
on a bench,
We're good old friends,
Oh, brother.
Guess things never change,
I feel young when I hear that old song. I feel like I'm 20 years old,
When you're around, it doesn't matter I'm bold,
Sure, I'm heavy,
But I punch my weight in gold.
When we're together, things don't matter at all.
Brother, oh brother, there's no one other.
There's you and me for as long as we can be.
