

# Tomorrow

## Pennywise

I can't believe the things I see, I turn around and get confused, and it's a mystery: why we all can't live in peace? One day we'll find an end and see we're always stuck with what will be Tomorrow, will we still be here tomorrow? The future looks clear tomorrow, I'll meet you there tomorrow, do not despair We had better open our eyes, better turn around and look ahead before it's too late, before ignorance takes our lives: that'd be a shame because what else do we have to hope but for Tomorrow; will we still be here tomorrow? The future looks clear tomorrow, I'll meet you there tomorrow, do not despair: GO! I can't believe the things I see, I turn around and get confused, and it's a mystery: why we all can't live in peace? One day we'll find an end and see we're always stuck with what will be Tomorrow; will we still be here tomorrow? The future looks clear tomorrow, I'll meet you there tomorrow, do not despair.
