

# Cannibal Nation

## Mob Rules

I saw the revolution coming  
I watched the people on the street  
Remember all the days of fighting

Until the institution bleedsCan't stand the hopeless way to freedom

The sense of life they let us know

Another try for better seasons  
Remaining lies to let us goPlease welcome the show!

Behind the wall of a cannibal nation

Inside a head where the passion remains

Dream your dream of a civilization

Without fear of painWhere did they hide the law of justice?

Why did they scream: stand by your guns?

Could you find out where all the dust is?

Hope and pride of a seventh sonPlease welcome the show!Behind the wall of a cannibal nation

Inside a head where the passions remains

Dream your dream of a civilization

The cannibal nation has gone

Freedom is coming along

The cannibal nation has gone

Behind the wall of a cannibal nation

Inside a head where the passions remains

Dream your dream of a civilization

Where all our souls are meant to be free
