

Give It Up

Soil

You get in my space
You get in my way
I cant do nothing
Nothing's right
You'll keep on pushing up in my face
I'm gonna leave you face down in the dirtFirst you say it
Don't think you get it
One more time ill break you downYou came out of nowhere
You only got yourself to blame
I gave all the warnings
There's nothing left to offer
Give it up
Give it up
Give it upI cannot take it
You bothering me
Whats your problem
Just get lost
Insist on crying
Your gonna get hurt
One more word and I'm bursting to break your bonesFirst you say it
Don't think you get it
One more time ill break you downYou came out of nowhere
You only got yourself to blame
I gave all the warnings
There's nothing left to offerYou came out of nowhere
You only got yourself to blame
I gave all the warnings
There's nothing left to offerI'm bleeding from my ears again
Listen to this shit I hear
Bleeding from the ears again
Listen to this shit I hear
Bleeding from the ears again
Bleeding from the ears!You came out of nowhere
You only got yourself to blame
I gave all the warnings
There's nothing left to offer
No cant we all deserve
No cant we all have earned
I gave all the warnings

There's nothing left to offerGive it up

Give it up

Give it up
