

Curiosity Kills

Jane's Addiction

What I feel
Is Different than the word love
Love is for fools
What I feel
Isn't foolish
We don't suffer fools, we out fool them.
I look at you picture
One day you decide
To never age
Save yourself
Took yourself out of the picture
Didn't you? Didn't you?
Curiosity kills
Curiosity kills
It's what we're on
It's a mean mean end
Curiosity kills
Could not keep
Your mind off of it
Wouldn't hear
What anyone said
You could run, make a new start
Just hid yourself out in the backyard
Curiosity kills
Curiosity kills

It's what we're on
It's a mean mean end
Curiosity kills
I look at your picture
One day you decide
Never age
Always late
Couldn't make
Our final date
Now could you? Could you?
Curiosity kills
Curiosity kills
It's what we're on

It's a mean mean end
Curiosity kills
They said look away, look away
But you couldn't look away
Look away, look away
Something made you stop and stare
That day
Curiosity kills
Curiosity kills
It's what we're on
It's a mean mean end
Curiosity kills
