

Over the Mountains

Bosson

Anywhere in the world I go for you I've made up my mind, I've packed my bags
I'm not returning home
Until someone will give me reason too I lock the door and take a breath
I'm ready to let go, I know you're somewhere out there too
There's only one thing for me to do and I go Over the mountains and over the sea
To find a heart that belongs to me
And anywhere in the world I go
Anywhere till I find you I run through the valleys, I run through the fields
I'd do anything I am hard to please
And anywhere in the world I go
Anywhere till I find you I fly like the wind, I don't know where
My heart will lead the way
I need someone to love and hold on to But the road is long I've had my doubts
But nothing lets me down
'Cause I know you're somewhere out there too
Waiting for me to get to you and I go Over the mountains and over the sea
To find a heart that belongs to me
And anywhere in the world I go
Anywhere till I find you I run through the valleys, I run through the fields
I'd do anything I am hard to please
Anywhere in the world I go
Anywhere in the world I go for you It doesn't matter what the time will tell
'Cause I will be here waiting
For you, for you and me It doesn't matter what the others say
'Cause I will keep on searching
And I go and I go and I go and I go Over the mountains and over the sea
To find a heart that belongs to me
And anywhere in the world I go
Anywhere till I find you I run through the valleys, I run through the fields
I'd do anything I am hard to please
And anywhere in the world I go
Anywhere till I find you Over the mountains and over the sea
To find a heart that belongs to me
And anywhere in the world I go
Anywhere till I find you I run through the valleys, I run through the fields
I'd do anything I am hard to please
And anywhere in the world I go
Anywhere till I find you
