Black Fire

DragonForce

We come from over the dark horizon sky

With twisted tales of sacrifice

To imagine or believe all the glory of the freeHunting all day an endless cry

The things I've seen I can't deny

Sinners, saints all mixed in one

The dawn of time has begunWhy can't you see what they're doing to me?

Is it fair that I'm dying in vain? Once in a land of sacrifice

Now only valleys of demise

Shadows of a pale blue moonlight

Ride the waves of entityWhy can't you see what they're doing to me?

Is it fair that you all die in vain? Ride with the steel and the power of the sword

Stand up and fight now and forever more

Rise through the night sky with daylight's desire

To be free there must be black fireThrough the day and through the night

With dragons heart the warrior strikes

This is the day that they'll be known as my enemyWhy can't you see what they're doing

To what we believe in, we rise through the painRide with the steel and the power of the sword

Stand up and fight now and forever more

Rise through the night sky with daylight's desire

To be free there must be black fireWe come from distant lands, we travel so far

Can you see the bleeding scar?

The prizes of life we fail to win

'Cause we doubt the power within, yeahOh oh oh

Why can't you see what they're doing

To what we believe in, we rise through the painRide with the steel and the power of the sword

Stand up and fight now and forever more

Rise through the night sky with daylight's desire

To be free there must be black fire, black fire
