

# Something Goes Right (feat. Sampha)

SBTRKT

Yeah, something goes right,  
Yeah, something goes right,  
Yeah something goes right  
And you're hoping that it goes right, that it goes right, that it goes right You wouldn't even know, you wouldn't  
even care,  
You wouldn't even know, you wouldn't even care  
I've been there though, I've been there though, I've been there though-oh. Standing in a dream world, sitting  
next to you, up in the clouds, up up in the clouds, up up in the clouds  
Sitting on the edge, looking down at the earth  
Looking up into space, up up into space, up up into space Is it better to let you go?  
Or is it better to let you know?  
You should t-t-t-take it, you should t-t-t-take it back Is it better to let you go?  
Or is it better to let you know?  
You should t-t-t-take it, you should t-t-t-take it back I've only got myself self self to blame  
Love something thinking things will never change  
These feelings probably will still still remain, I was always hurt And I've been feeling like this most most of my  
life whoa  
I've been feeling like things ain't gonna change  
Things ain't gonna get it back? Is it better to let you go?  
Or is it better to let you know?  
You should t-t-t-take it, you should t-t-t-take it back Is it better to let you go?  
Or is it better to let you know?  
You should t-t-t-take it, you should t-t-t-take it back I keep on having these conversations & p-p-p-praying  
I keep on staring at these constellations & p-p-p-praying  
And these bitter thoughts that keep on escaping  
I wish that they were staying and something would go right and something will go right, go right Don't you  
bring me down.  
Don't you bring me down.  
Don't you bring me down. Don't you bring me down.  
Don't you bring me down.  
Don't you bring me down. Is it better to let you go?  
Or is it better to let you know?  
You should t-t-t-take it, you should t-t-t-take it back Is it better to let you go?  
Or is it better to let you know?  
You should t-t-t-take it, you should t-t-t-take it back Yeah, something goes right,  
Yeah something goes right  
And you're hoping that it goes right, that it goes right, that it goes right oh You wouldn't even know, you  
wouldn't even care,  
You wouldn't even know, you wouldn't even care

I've been there though, I've been there though, I've been there though-oh.Standing in a dream world, sitting  
next to you, up in the clouds, up up in the clouds, up up in the clouds  
Sitting on the edge, looking down at the earth  
Up into space, up up into space, up up into space
