Step forward youth, at the moment of truth
Don't be distracted, don't be the fool
Step forward youth, at the moment of truth
Go beyond your senses, get a clear viewStep forward youth, at the moment of truth
Don't be distracted, don't be the foolWhen you're deafened by the sound of betrayal
And there's no one left to trust
Falling off the end of the scale
You carry on because you mustWhen you're down to the last of your senses
And the pain is broken out of thoughts
Somehow you've got to pull yourself together
You've got to make good of all the things, you've been taughtStep forward youthWhen you're deafened by the sound of betrayal
And there's no one left to trust
Falling off the end of the scale
You carry on because you mustJust when they think it's all over
Just when you think you're falling back in line
Maybe just a small word to a young child
Maybe just a moment of peace in your mindStep forward youth, at the moment of truth
Don't be distracted, don't be the fool
Step forward youth, at the moment of truth
Go beyond your senses, get a clear viewForward youth, forward, [Incomprehensible]
Forward youth, forward, [Incomprehensible]
Forward youth, forward, [Incomprehensible]
