

# Party of Three

## Ninja Sex Party

Girl I'm  
Gonna take you on a date tonight  
So put on your sexy dress and meet me  
In my chambers by the firelight  
This night is gonna be the best of your life  
Oooh yeah  
The mood is right  
You look more beautiful than poetry can describe  
By the way do you mind if Ninja Brian  
Joins us, he's promised not to kill anyone  
Oh never mind  
It's a party of three  
It's just you and me  
And a psychotic ninja  
Every girls dream  
Don't make sudden movements  
Good evening, would you like an appetizer?  
Oh Brian  
Do you see what I mean  
Nothing's more romantic  
Than a murder in the second degree  
You'll be convinced  
Though I'm sensing you're not totally  
On board with this  
Was it the murder thing?  
Yeah I thought it might be  
Now it's after dinner and we're out at the club  
I'm grinding up against you  
And I'm starting to chug  
Oh you know girl  
We're making it work  
While Brian goes completely fuckin' ape shit bezerk  
There were three hundred people at this club  
Brian killed 297 so that leaves us with a  
party of three  
If human life were a keyboard he'd be gluing down CTRL-ALT-DELETE  
Don't make direct eye contact  
Yo I'm the DJ who wants to dance  
Okay Brian we get it

Girl you're looking at me  
Like you're feeling sick  
I'll take you home and give you  
Vitamin P  
That stands for penis  
Nothing will come between us  
Brian, lay down a tasty bridge  
Damn girl  
We had such a great night  
It's a shame all bystanders couldnt have survived  
We're going back to my place  
Where we're going to make love  
At the moment of completion I'll release some fuckin' doves  
Let me lay the foundation  
Of the state of our relation  
Theres gonna be temptation  
And sensation of vibration  
Followed by the cremation of your sexual frustration  
Ending in the culmination of elation consumation  
There's just one thing I think I forgot to mention  
Ninja Brian's going to be there giving us his full attention  
'Cause nothing could be hotter than a sensual embrace  
With a ninja staring at us three inches from your face  
It's a party of three  
Welcome to my kingdom of Slam-a-lot  
You are the new queen  
Please take your throne  
Together we'll rule this majestic bedroom alone  
Oh, hey Brian  
I think we can all agree  
It's time for me to plow your fields  
And sow the seeds of a new family tree  
We're young and free  
Come on baby  
It's just you and me  
Ninja Brian
