

# I Have Seen a Light

## Destroyer

I have seen a light...  
I have seen a light...  
Young lions at Night play too close to the wire...  
That's OK, it's just fire...  
I have seen a light...  
I have seen a light...  
Young lions at Night stray too close to the wire...  
That's OK, it's just fire...All the clay doves say they're hard done by me,  
but Crystal we need real things tonight...  
All the clay doves say they're hard done by me,  
but Crystal we need real things tonight...Yes, you've seen a light in that look...  
(after taking every drug she took)...  
I got found out...  
Someone bought the book, now it's no good...  
I have seen a light...
